### **Talk to Your Software Provider *Now!***

We recently learned, through our national administrative office, some bankruptcy software providers will be "getting out of the business" before the new bankruptcy forms take effect on December 1, 2015. If you use such software in your practice, talk to your software provider now. If your current software provider won't be around after November 30, 2015, you will need to find a new provider and get set up soon so your office is ready to go on December 1 with the new forms.

To date, we have been informed EZ-Filing software will no longer be updated or supported after November 30, 2015. At least two other software companies are expected to follow suit. However, we have been told Best Case Bankruptcy and CINcompass will support the new bankruptcy forms.
