Please welcome Reece Almond to the group.

### **Telephonic Hearings and Speakerphones**

To allow Judge Nail and other parties to be heard at all times during telephonic hearings and conference calls, attorneys and other parties should only speak using a telephone handset or a full-duplex (**not** a half-duplex) speakerphone. A half-duplex speakerphone is similar to a walkie-talkie in that when the user of the system is talking no one else on the call can be heard by the speaker or by the other participants. In contrast, a full-duplex speakerphone allows the speaker and everyone else on the call to speak and be heard at all times. If you are using a half-duplex speakerphone to participate in a telephonic hearing or a conference call and wish to speak, please pick up your handset and speak using it (a handset is a full-duplex device). If you don't know whether your speakerphone is full-duplex or half-duplex, please check with your telephone provider.
