

BANKRUPTCY ^{UP}DATE

December 3, 2025

If someone else would like to receive these ^{UP}dates, please send an e-mail to Shan_Stroup@sdb.uscourts.gov.

South Dakota Filings Up Five Percent in 2025

In the first 11 months of 2025 South Dakota bankruptcy filings increased by five percent from the number of bankruptcies filed in the first 11 months of last year.

PACER and Multi-Factor Authentication Update

PACER recently released an update allowing users with CM/ECF access whose account search status becomes inactive to reset their password without contacting the PACER Service Center (PSC), though you will need to contact the PSC to reactivate your PACER search status if your account has been deactivated. If you receive a multi-factor authentication (MFA) enrollment prompt, you can enroll by following the steps outlined on the [MFA Tips and Resources](#) page of PACER's website (which also contains answers to some common questions) and support from the PSC is not required for enrollment. Contacting the PSC only when necessary will help ensure support is available for those who have an urgent need.
